

FIRAS NAJJAR

Full-Stack Web Developer | AI-Assisted Software Engineering

Tunisia | +216 58 775 334 | its.FirasNajjar@gmail.com | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Full-stack web developer with a Bachelor's degree in Computer Science and Multimedia and experience building, maintaining, and deploying web applications. Experienced across frontend, backend, databases, data engineering, automation, UX/UI, testing, CI/CD, hosting, and version control. Strong focus on using AI-assisted development, local LLMs, and agentic workflows to accelerate development, research, automation, and complex problem-solving. Comfortable independently taking projects from requirements and architecture through implementation and deployment. Currently expanding expertise in C# and .NET.

EXPERIENCE

Webmaster / Full-Stack Web Developer — SAM / KGS

Feb 2025 – Present

Tunisia

- Independently maintain, enhance, and develop production web applications across frontend, backend, databases, hosting, deployment, and testing.
- Learned and applied the LAMP stack through maintaining existing PHP projects and developing new applications from scratch.
- Build responsive interfaces and backend functionality using JavaScript, PHP, MySQL, HTML/CSS, and REST APIs.
- Perform data engineering and web scraping to collect, process, structure, and integrate large datasets into business applications.
- Develop automation workflows, including email automation, data-processing pipelines, and operational tools.
- Use AI assistants, local LLMs (Ollama, Qwen), and agentic engineering workflows to accelerate research, development, debugging, data processing, and automation.
- Manage projects independently across UX/UI, frontend, backend, data, version control, CI/CD, hosting, and production troubleshooting.

Front-End Developer — Bridges

Jul 2024 – Present

Montplaisir, Tunisia

- Develop and enhance responsive web interfaces using React.js, JavaScript, HTML, and CSS, with a focus on usability and performance.
- Integrate third-party APIs and develop custom CMS themes to extend functionality and improve user experience.

Full-Stack Web Developer Intern — TIC-NOVA

Jun 2023 – Jul 2023

Manouba, Tunisia

- Developed a modular single-page application using Angular and responsive design principles.
- Created reusable Angular Material components and collaborated with a six-person team using Jira across 50+ tasks.

Freelance Web & UI/UX Developer — Self-Employed

May 2021 – Present

- Delivered responsive websites and digital experiences for clients across multiple industries, managing projects from design and development through delivery.
- Applied UI/UX, responsive design, branding, and email marketing to improve client websites and digital campaigns.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Angular, TypeScript, JavaScript, HTML5, CSS3, Responsive Web Design

Backend: PHP, LAMP, REST APIs, Backend Development

Databases: MySQL, Database Design, Data Processing

AI & Automation: AI-Assisted Development, Local LLMs, Ollama, Qwen, Agentic Engineering, Workflow Automation

Data: Web Scraping, Data Engineering, API Integration, Data Collection & Processing

DevOps: Git, CI/CD, Linux, Hosting, Deployment, Testing, Production Debugging

Design: UI/UX Design, Figma, Adobe Creative Suite

Currently Learning: C#, .NET, ASP.NET Core

EDUCATION

Bachelor of Computer Science and Multimedia — ISIMG

2020 – 2023

Graduated with honors; focus on Web Development.

Baccalaureate in Computer Science — Sidi Hassine Technical High School

2017 – 2020
